unincorporated places (now, census designated places) for the 1950 census. Urban was defined as territory, persons, and housing units in urbanized areas and, outside urbanized areas, in all places, incorporated or unincorporated, that had 2,500 or more persons. With the following three exceptions, the 1950 census definition of urban has continued substantially unchanged. First, in the 1960 census (but not in the 1970, 1980, or 1990 censuses), certain towns in the New England States, townships in New Jersey and Pennsylvania, and Arlington County, Virginia, were designated as urban. However, most of these "special rule" areas would have been classified as urban anyway because they were included in an urbanized area or in an unincorporated place of 2,500 or more persons. Second, "extended cities" were identified for the 1970, 1980, and 1990 censuses. Extended cities primarily affect the figures for urban and rural territory (area), but have very little effect on the urban and rural population and housing units at the national and State levels— although for some individual counties and urbanized areas, the effects have been more evident. Third, changes since the 1970 census in the criteria for defining urbanized areas have permitted these areas to be defined around smaller centers.

Documentation of the urbanized area and extended city criteria is available from the Chief, Geography Division, U.S. Bureau of the Census, Washington, DC 20233.

Extended City

Since the 1960 census, there has been a trend in some States toward the extension of city boundaries to include territory that is essentially rural in character. The classification of all the population and living quarters of such places as urban would include in the urban designation territory, persons, and housing units whose environment is primarily rural. For the 1970, 1980, and 1990 censuses, the Census Bureau identified as rural such territory and its population and housing units for each extended city whose closely settled area was located in an urbanized area. For the 1990 census, this classification also has been applied to certain places outside urbanized areas.

In summary presentations by size of place, the urban portion of an extended city is classified by the population of the entire place; the rural portion is included in "other rural."

URBANIZED AREA (UA)

The Census Bureau delineates urbanized areas (UA's) to provide a better separation of urban and rural territory, population, and housing in the vicinity of large places. A UA comprises one or more places ("central place") and the adjacent densely settled surrounding territory ("urban fringe") that together have a minimum of 50,000 persons. The urban fringe generally consists of contiguous territory having a density of least 1,000 persons per square mile. The urban fringe also includes outlying territory of such

density if it was connected to the core of the contiguous area by road and is within 1 1/2 road miles of that core, or within 5 road miles of the core but separated by water or other undevelopable territory. Other territory with a population density of fewer than 1,000 people per square mile is included in the urban fringe if it eliminates an enclave or closes an indentation in the boundary of the urbanized area. The population density is determined by (1) outside of a place, one or more contiguous census blocks with a population density of at least 1,000 persons per square mile or (2) inclusion of a place containing census blocks that have at least 50 percent of the population of the place and a density of at least 1,000 persons per square mile. The complete criteria are available from the Chief, Geography Division, U.S. Bureau of the Census, Washington, DC 20233.

Urbanized Area Central Place

One or more central places function as the dominant centers of each UA. The identification of a UA central place permits the comparison of this dominant center with the remaining territory in the UA. There is no limit on the number of central places, and not all central places are necessarily included in the UA title. UA central places include:

1. Each place entirely (or partially, if the place is an extended city) within the UA that is a central city of a metropolitan area (MA).
2. If the UA does not contain an MA central city or is located outside of an MA, the central place(s) is determined by population size.

Urbanized Area Title and Code

The title of a UA identifies those places that are most important within the UA; it links the UA to the encompassing MA, where appropriate. If a single MA includes most of the UA, the title and code of the UA generally are the same as the title and code of the MA. If the UA is not mostly included in a single MA, if it does not include any place that is a central city of the encompassing MA, or if it is not located in an MA, the Census Bureau uses the population size of the included places, with a preference for incorporated places, to determine the UA title. The name of each State in which the UA is located also is in each UA title.

The numeric code used to identify each UA is the same as the code for the mostly encompassing MA (including CMSA and PMSA). If MA title cities represent multiple UA's, or the UA title city does not correspond to the first name of an MA title, the Census Bureau assigns a code based on the alphabetical sequence of the UA title in relationship to the other UA and MA titles.

VOTING DISTRICT (VTD)

A voting district (VTD) is any of a variety of types of areas (for example, election districts, precincts, wards, legislative districts) established by State and local governments for purposes of elections. For census purposes,

EXHIBIT 3

The map displays the city of Clarksville, Tennessee, and its surrounding areas. The city is shaded in black, and its various neighborhoods are labeled, including Fort Campbell, Oak Grove, Cumberland Heights, and Lone Oak. The map also shows the Cumberland River and the Red River. Surrounding counties are labeled, including Montgomery, Christian, and Stewart. The map includes a scale bar and a north arrow.

DECLARATION OF D. J. EVERETT

D. J. Everett hereby declares as follows:

1. I am President and the majority shareholder of Ham Broadcasting, Inc. ("Ham"), licensee of Stations WKDZ(AM) and WKDZ-FM, Cadiz, Kentucky. Ham has proposed in MM Docket No. 93-314 (RM-8396) the upgrade of WKDZ-FM from Channel 292A at Cadiz to Channel 293C3 at Oak Grove. If Ham's proposal is granted, it will immediately file an application for a construction permit authorizing the upgrade of station WKDZ-FM to Channel 293C3 at Oak Grove.

2. I live in Hopkinsville, Kentucky, in Christian County, the same county where Oak Grove is located. I have visited Oak Grove several times; have studied its demographics, government, and community institutions; and am personally familiar with many aspects of the community which are discussed below.

3. Attached to Ham's Comments is a true and correct copy of a print-out of U.S. Censusdata I obtained from the Pennyryle Area Development District, indicating that of 1,338 workers in Oak Grove Kentucky, 979 work in Christian County (Oak Grove's home county), while only 359 work out of state.

4. Oak Grove, which is located in Christian County, Kentucky, does not have its own newspaper. Residents of Oak Grove subscribe in approximately equal numbers to the Kentucky New Era, published in Hopkinsville, the county seat for Christian County, and the Clarksville Leaf Chronicle, published in Clarksville, Tennessee (I obtained this information upon my own personal inquiry to the papers). No radio or television broadcast stations are licensed to Oak Grove.

5. I have listened to the three AM stations, one commercial FM station, and one noncommercial FM station licensed to other communities in the Clarksville Urbanized Area and have not heard any of them refer to Oak Grove in their station identification announcements. I have not found any programming on any of these stations involving a concerted effort to serve Oak Grove or cover events of particular interest to Oak Grove's residents.

6. Residents of Oak Grove share no governmental or utility services with Clarksville, nor do Oak Grove and Clarksville share a common school district. Oak Grove residents must go to the Christian County courthouse to renew their automobile tags and driver's licenses, to obtain marriage licenses, and to record deeds and mortgages. Oak Grove's emergency medical services are provided in Kentucky; the city's ambulances ordinarily transport patients to Hopkinsville, not Clarksville. The banks which serve

Oak Grove are all chartered in Kentucky; no Tennessee banks from Clarksville or elsewhere have branches in Oak Grove, nor are they permitted to operate there. Although Oak Grove residents sometimes travel to Clarksville for shopping and entertainment, they are more likely to travel to Hopkinsville and do so often because of the lower sales tax rate in Kentucky; and because Tennessee taxes groceries but Kentucky does not.

7. Oak Grove has its own mayor and city council as well as its own annual budget, which for 1994 is estimated to be \$1,300,496.64. At the state level Oak Grove is represented in the Kentucky State Legislature, whereas Clarksville is represented by members of the Tennessee General Assembly. Oak Grove and Clarksville are represented by different members of the United States Senate and House of Representatives and are subject to the authority of different State governors.

8. Oak Grove must obtain any state grants directly from state agencies located in Frankfort, the Kentucky State capital. Any federal grants must be obtained through the Pennyryle Area Development District, which encompasses Christian County, Kentucky, but not any part of the State of Tennessee. Oak Grove's tax revenues are derived from assessments on its own residents; the residents of Clarksville make no financial or other contribution to the Oak Grove treasury, nor vice versa.

9. Oak Grove does not have its own telephone directory. The local telephone company includes all of the smaller communities in the region in a single, regional telephone directory. Oak Grove's telephone listings are included in the regional directory covering Christian County. That directory does not include listings for Clarksville. Further, Oak Grove and Clarksville each have their own area codes (502 - Oak Grove; 615 - Clarksville).

10. Oak Grove has its own postal Zip Code, "42262", which is in the "422" sequence of zip codes used by the surrounding Kentucky cities. By contrast, Clarksville's zip code, "37040," is in the "370" sequence of zip codes used by all of the Tennessee cities which surround Clarksville. Oak Grove has its own post office, and the rural postal routes surrounding Oak Grove are served by the Hopkinsville post office, not from Clarksville.

11. According to the "privilege licenses" (i.e., those licenses necessary to do business in a particular community) on file with the Oak Grove city clerk, Oak Grove has a wide variety of its own commercial establishments, including grocery stores, restaurants, furniture stores, banks, garages, automobile sales, mobile home sales, video rentals, liquor stores, pawn shops, and dry cleaners. I have found none of these businesses to be branches or affiliates of similar businesses, in Clarksville.

Oak Grove businesses also operate under different local and state regulatory requirements. For example, liquor and beer sales are permitted on Sunday in Clarksville, but not in Oak Grove. Oak Grove has its own Chamber of Commerce, which is not affiliated with the Clarksville Chamber of Commerce. In addition, Oak Grove has its own civic clubs and churches, none of which I have found to be branches or affiliates of churches and civic clubs in Clarksville.

12. Oak Grove does not have its own hospital, but it does have its own emergency ambulance service, which normally transports patients to medical facilities in Hopkinsville, Kentucky, not Clarksville, Tennessee. Patients are transported to Clarksville only in unusual situations. Oak Grove also has its own veterinary hospital for animal care.

13. Because of its small size, Oak Grove does not have its own public transportation system, except for the school buses which transport Oak Grove's children to and from schools in Hopkinsville, not Clarksville.

14. Arbitron includes Clarksville listeners in its radio audience measurements for Montgomery County, Tennessee, but includes Oak Grove listeners in its radio audience measurements for Christian County, Kentucky. Oak Grove and Clarksville are served by separate cable operators (Cablevision Systems and Crown Cable, respectively).

15. Oak Grove does not depend on Clarksville for any municipal services. It has its own police department, which operates entirely independently of the Clarksville police department. Criminals arrested in Oak Grove may not be transported to Tennessee unless proper extradition procedures have been followed. Similarly, Clarksville police may not arrest suspects or serve warrants in Oak Grove unless accompanied by an Oak Grove police officer. Oak Grove operates its own emergency dispatch service which is not connected to that in Clarksville. Further, Oak Grove's police department shares radio frequencies with Christian County law enforcement personnel, not those in Clarksville. Federal crimes committed in Oak Grove are tried in the Federal District Court for the Western District of Kentucky and not in any federal court in Tennessee.

16. Oak Grove has its own fire department, municipal water system and municipal sewer systems, which are separate from those serving Clarksville. Streets and highways in Oak Grove are maintained by the Kentucky Department of Highways and the Christian County Road Department. Clarksville does not participate in the building, maintenance,

upgrade or clearing of Oak Grove's street and roads. Oak Grove also receives electric utility service from Pennyrite Rural Electric, whereas Clarksville has its own municipal utility.

17. Oak Grove students attend Christian County public schools, and the Christian County Board of Education has made plans to locate an elementary school in Oak Grove. There is no library in Oak Grove, but the community is served by the Christian County (Kentucky) Bookmobile from Hopkinsville. Oak Grove does not receive any type of library service from Clarksville.

18. The upgrading of WKDZ-FM is extremely important to the economic survival of the station. The marketplace in the Cadiz area is becoming increasingly competitive. The revenues of WKDZ-AM-FM have declined in each of the past three years. The station's ability to serve the community depends on revenues, so the present trend must be reversed to avoid the service cutbacks that will inevitably follow continuing declines.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on February 14, 1994.

D. J. Everett

COMMONWEALTH OF KENTUCKY

CITY OF OAK GROVE

P.O. BOX 217 OAK GROVE, KY 42262

PHONE: (502) 439-4646

FAX: (502) 439-1201

February 15, 1994

Mr. William F. Caton, Acting Secretary
Federal Communications Commission
Washington, DC 20554

RE: MM DOCKET NO. 93-314
FM TABLE OF ALLOTMENTS
OAK GROVE, KENTUCKY

Dear Mr. Caton:

I understand that the Commission has recently proposed to allot an FM frequency to Oak Grove, Kentucky, but has questioned whether Oak Grove merits its own station because Oak Grove is part of the same U.S. Census Urbanized Area as Clarksville, Tennessee, which has radio stations of their own. While it is up to your agency to determine the proper standards for allocating radio frequencies, it would be inappropriate to deny this community its own station based on the notion that Oak Grove and Clarksville are part of a single, independent, economic unit. Regardless of how the U.S. Census Bureau may draw its maps, Oak Grove is separate from Clarksville, viable in its own right, in a different state and with a different life from that of Clarksville. Our political, social and economic activity is focused on Oak Grove, Kentucky, rather than on Clarksville or anywhere else.

The residents of this community, many have been here for generations, consider themselves to be residents of Oak Grove and to be Kentuckians, not Clarksville "suburbanites". We live by Kentucky laws and pay our taxes to the State of Kentucky. We have no common legislative representation, either local, state or federal with Clarksville. We share no governmental services or utility services with Clarksville, Tennessee. We have no common school district with Clarksville, but rather are part of the Christian County, Kentucky, school system. Our citizens apply for permits, licenses, and other needs in Kentucky, either locally or at the County Court House in Hopkinsville, Kentucky. Nothing of that nature comes from Clarksville, Tennessee. Our Police Department is completely independent from Clarksville; they do not share radio frequencies and in fact Clarksville law enforcement Officers may not cross the state line and make arrests in Kentucky. Emergency medical services are provided in Kentucky; ambulances transport patients to Hopkinsville, not Clarksville, Tennessee. We are not served by the municipal bus system in Clarksville. Our banks are all chartered in Kentucky; no Tennessee banks from Clarksville have branches in Oak Grove. We have our own Churches, Civic Clubs and Fraternal Organizations, none of which are connected with or are branches or offshoots of those in Clarksville, Tennessee.

BOBBY G. MACE, MAYOR • BARBARA A. JOHNSON, CITY CLERK • JOHN J. CHURCHING, CITY ATTORNEY

FEBRUARY 15, 1994

MR. WILLIAM F. CATON, ACTING SECRETARY

PAGE TWO

Certainly our citizens sometimes travel to Clarksville for shopping and entertainment, but they are just as likely to travel to Hopkinsville and often do so because they can attend to various government and legal affairs there, and also because of more favorable sales taxes in Kentucky. They also do not work predominantly in Clarksville, Tennessee.

Our records show that we currently have a total of 233 businesses licensed to operate in Oak Grove, and the Census Bureau released figures this week showing that our population has grown by 6%, (through the end of 1992), to 3,049 persons. We have one estimate that if we can get our sewer expansion on line quickly, we could grow to as much as 10,000 by the year 2000. As you can see, Oak Grove is an extremely fast growing community, which is another reason we would like to have our own radio station.

I have been Mayor of Oak Grove, Kentucky, since the first of the year, and served on the City Council for eight years before that. During that time, neither the radio stations nor the newspaper in the "Clarksville Urbanized Area" have covered the activities of the City of Oak Grove. Obviously we are doing newsworthy things, however, as there is news coverage of Oak Grove from the Hopkinsville area.

Whatever purpose the Census Bureau's Urbanized Area designation may serve, it should not be taken as indication that Oak Grove, Kentucky, is part of a single community with Clarksville, Tennessee. We are definitely separate, we have our own needs, and we would welcome having our own radio station to meet those needs.

Sincerely,

Bobby G. Mace
Bobby G. Mace, Mayor

D. J. Everett
310 Deepwood Drive
Hopkinsville, KY 42240

Dear Mr. Everett:

This is in response to your request for information about the interaction between the city of Oak Grove, and Christian County, Kentucky. It is my understanding that because Oak Grove is contiguous to Clarksville, the FCC has questioned whether Oak Grove is really a part of the Clarksville urbanized area. Let me assure you that it is not. It is my understanding that the Census Bureau defines an Urbanized Area based on population density only, and that would certainly be the only justification for including Oak Grove and Clarksville in the same Urbanized Area.

In fact, Oak Grove is an incorporated city in the state of Kentucky, a fact which in itself precludes Oak Grove from being a part of Clarksville, Tennessee.

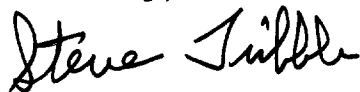

Oak Grove has its own police, fire and ambulance, as well as other municipal services such as water, sewer and garbage.

Many government services are available to Oak Grove residents only at the Christian County, Kentucky, Courthouse. They would include voter registration, marriage licenses, recording deeds, property transfers, car inspections, car licenses, and drivers' licenses. These are all functions that must be conducted in the county of residence and cannot be accomplished in the state of Tennessee. The Commonwealth of Kentucky and Christian County are responsible for maintaining any state or county roads in the Oak Grove area while the city of Oak Grove is responsible for maintaining the city streets inside its limits. Clarksville has no responsibility for streets and roads in Oak Grove. Oak Grove is also a participant in our City/County Planning Commission,

Page 2
D. J. Everett
February 9, 1994

and thus planning and zoning regulations applicable to Oak Grove are those in Kentucky, not Clarksville, Tennessee. In short, although the Census Bureau may have designated Oak Grove as a part of the Clarksville urbanized area, that is a technical definition for the Bureau's own purposes and in no way affects the day to day lives of the citizens of Oak Grove. I hope this information is of use to you.

Sincerely,

A handwritten signature in cursive script that reads "Steve Tribble". The signature is written in dark ink and is positioned above the typed name.

HELP US HELP YOU **USE ZIP CODE**

What is The Postal Zip Code? How Does it Work? How can you Help!

ZIP CODE is a five-digit code which identifies a delivery unit and associates that unit with a major post office through which mail is routed for delivery.

The first digit identifies one of ten large areas of the nation. The first three digits identify a major city or distribution point. The five digits

identify an individual post office, a zone of a city, or other delivery unit.

The ZIP CODE number is always written after the state, or on the line below the state. It is never to be written between the city and state.
